

Girth Size Chart - PDF Guide

This girth size chart is a quick-reference guide for selecting the correct girth size based on your horse's build. Girth sizes are typically measured in inches or centimeters and vary depending on the horse's breed and build. Always measure your horse properly for the most accurate fit.

Horse Type	Girth Size (inches)	Girth Size (cm)
Pony	40 - 44	101 - 112
Cob	46 - 50	117 - 127
Full	52 - 56	132 - 142
Warmblood	58 - 62	147 - 157
Draft	64+	162+
